SUMMARY

Full Stack Developer with 1+ year of experience in full stack development and building scalable web applications using PHP, Laravel, Node.js, React.js, and MySQL. Skilled in API development, secure authentication systems, and database management. Proven ability to deliver responsive, SEO-optimized, high-performance applications with clean, maintainable code.

EDUCATION

SZABIST UNIVERSITY Hyderabad, Pakistan
Bachelor of Computer Science Expected May 2026

PUBLIC SCHOOL HYDERABAD Hyderabad, Pakistan
Pre-Engineering 2019 - 2021

WORK EXPERIENCE

CODEPRO SOFTWARE AND WEB SERVICES Hyderabad, Sindh
Full Stack Developer Jan 2024 – Jan 2025

- Developed scalable web applications using Laravel, Node.js, and modern frontend technologies, ensuring responsive and user-friendly interfaces
- Designed and implemented RESTful APIs and optimized database queries, improving system performance and reducing API response time by up to 30%
- Troubleshot production issues and collaborated with cross-functional teams to deliver stable, high-performance applications

AXOON SOLUTIONS Pakistan, Remote
Backend Developer Intern Jun 2025 – Jul 2025

- Assisted in backend development using Laravel, Node.js, and Express.js
- Built and optimized API endpoints to improve data processing efficiency
- Integrated frontend components with backend services using REST APIs

UNIVERSITY PROJECTS

FLEET MANAGEMENT SYSTEM (Full Stack Web Application)

- Developed a full-stack application for vehicle tracking, inspection logs, and analytics dashboard using modern web technologies
- Built RESTful APIs using Node.js and Express.js to handle real-time data processing and system operations
- Optimized database queries and indexing, improving response time by approximately 20%
- Implemented secure authentication and role-based access control to manage different user permissions

ONLYMETRIC DASHBOARD (COGS INTELLIGENCE SYSTEM)

- Developed a real-time analytics dashboard for cost analysis in hospitality businesses using Laravel and React.js
- Designed and implemented modules for suppliers, invoices, and staff management to streamline operations
- Optimized database performance through efficient query handling and data structuring
- Deployed the application in a cloud environment with production-ready configuration and scalability

TRADEFAST – AI POWERED CRM (Full Stack Application)

- Developed a CRM system for lead management, automated quotations, and customer interaction tracking
- Integrated AI voice agent for automated inbound call handling to improve response efficiency
- Implemented WhatsApp integration and automated workflows for enhanced customer communication
- Designed backend architecture to support scalable operations and seamless API integrations

TECHNICAL SKILLS

Programming Languages: PHP, JavaScript, Python, TypeScript
Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, jQuery, Next.js
Backend: Laravel, Node.js, Express.js, Flask, FastAPI
Databases: MySQL, PostgreSQL, MongoDB, SQLite
APIs, Integrations & Tools: RESTful APIs, GraphQL, WebSockets, Payment Gateway Integration, n8n Automation, AI-powered Development Tools (ChatGPT, GitHub Copilot, Claude AI), Postman, Version Control (Git)
